TECHNICAL SKILLS

- **UI/UX & Graphic Designing:** Wireframing, User Flows, Prototyping, Design Systems, Visual Design, Branding, Typography, Figma, Adobe Photoshop, Adobe Illustrator, Affinity, Canva
- **Web Technologies:** HTML, CSS, JavaScript, Python, C, SQL
- **Tools & Platforms:** Framer, Dora AI, VS Code, Cursor, ChatGPT, AI chatbots, Antigravity, Lovable, Bolt, Nessus, Autopsy, FTK Imager, Acunetix, CapCut

WORK EXPERIENCE

Designing & Branding | Freelance

Jul 27, 2025 – Present

- Delivered branding and design solutions including logos, social media creatives, and promotional assets aligned with client goals.
- Built visually consistent brand identities while managing multiple projects and client communication independently.

UI/UX Design Intern | Codec Technologies

Jun 2, 2025 – Jul 2, 2025

- Designed user flows, wireframes, and high-fidelity UI for two mobile applications using Figma, focusing on usability and clarity.
- Delivered end-to-end UI designs for internship projects, documented and presented through a structured design portfolio.

UI/UX Designing | GSFC University

May 25, 2025 – Oct 7, 2025

- Designed UI components and layouts for the official university fest website, focusing on visual consistency and usability.
- Collaborated with organizers and developers to translate requirements into functional interface designs.

Academic Associate | GSFC University

Aug 16, 2024 – Apr 29, 2025

- Conducted practical sessions for C, C++ Programming, and Digital Electronics, strengthening communication and instructional design skills.
- Assisted students through hands-on problem-solving and structured practice sessions.

Gen-AI Design | Rewamp Digital

Dec 9, 2024 – Jan 8, 2025

- Designed AI-assisted visual assets for digital marketing and print, ensuring alignment with client branding requirements.
- Structured prompts and workflows to generate consistent, production-ready design outputs.

Graphic Designing | GSFC University

May 20, 2023 – Nov 18, 2025

- Led graphic design and branding for major university initiatives, including fest creatives, print assets, and official publications.
- Designed visual materials such as banners, magazines, certificates, and social media content at scale.

Web Development Intern | Semicolon Solutions

Dec 16, 2023 – Jan 16, 2024

- Designed and developed a responsive tourism website (BlogHunt) with clean UI and intuitive navigation.
- Implemented frontend layouts using HTML, CSS, and JavaScript to enhance user experience.

PROJECTS

DocMorph – Converting Unstructured Content into Professional Documents | AI & Automation

Feb 2026 – May 2026

- Built an AI-assisted document conversion platform that transforms uploaded documents and spreadsheets into editable, structured, and exportable files.
- Implemented OCR-based menu extraction, spreadsheet-based marksheet generation, bulk export, dashboard analytics, and verification QR workflow.

AI-Powered Chatbot | AI & Automation

Dec 2025

- Built an AI-based chatbot to handle user queries using NLP, intent detection, and contextual responses.
- Implemented Python-based logic and API integration to support chatbot responses and interaction tracking.

Automated Resume Parser | AI & Automation

Dec 2025

- Developed a system to extract and structure key information from PDF/DOC resumes automatically.
- Applied NLP techniques to categorize data (skills, education, experience) and store it in a searchable format.

Diabetes Management App | UI/UX

Jun 2025 – Jul 2025

- Designed a mobile app interface to help users track sugar levels, and medication with a user-centered approach.
- Created high-fidelity screens in Figma, emphasizing accessibility and ease of use.

Personal Finance Management App | UI/UX

Jun 2025 – Jul 2025

- Designed an intuitive interface for tracking income, expenses, budgets, and savings goals.
- Focused on information hierarchy, clean layouts, and reusable UI components for better usability.

E-Learning App | UI/UX

Jun 2025 – Jul 2025

- Designed a structured mobile learning interface with clear navigation and readable typography.
- Built consistent UI components to enhance learner engagement and content flow.

SAR Image Colorization for Comprehensive Insight | Deep Learning

Feb 18, 2025 – May 2, 2025

- Developed a deep learning pipeline to colorize SAR images using CGAN models, improving interpretability and visual understanding.
- Designed the output workflow with a focus on clarity and visual consistency using Python, PyTorch, and supporting tools.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

GSFC University, Vadodara

2022-2026

EXTRACURRICULAR ACTIVITIES

Vice President | Ananta’25, GSFCU

- Contributed to planning and execution of large-scale technical and cultural events, coordinating with multiple teams.

Vice President | CODE CLUB, GSFCU

- Coordinated club activities and workshops, boosting student participation and engagement.

Resource Head | Ananta’24, GSFCU

- Oversaw resources and coordination for festival events, supporting organizers and participants effectively.

Event Manager | HERITAGE CLUB, GSFCU

- Managed logistics and execution of heritage club events, ensuring smooth operations and high attendance.

AWARDS & ACHIEVEMENTS

- **The Serious Visionary Award** – Ananta Techno Cultural Fest, GSFC University (2025)
- **1st Prize** – TechXhibit 2025, GSFC University for SAR Image Colorization Project (2025)
- **Organizing Lead Recognition** – Managed technical & cultural fests with 4,000+ footfall, enhancing student engagement (2024–2025)
- **The UNSTOPPABLE Award** – Ananta Techno Cultural Fest, GSFC University (2024)

OTHER SKILLS

- Leadership, Event & Resource Management, Cross-functional Collaboration, Communication, Problem Solving & Decision Making
